

.experience

- Apr 2018-Present **Director of Product and Engineering**, Automated Insights. Durham, NC
Managing the flagship product for Automated Insights; Wordsmith. I lead engineering, design, and product direction for Wordsmith. I'm responsible for the teams working within codebases supporting the platform, driving product and feature level decisions, and coordinating with the rest of the organization.
- Apr 2017-Apr 2018 **Software Engineering Manager**, Automated Insights. Durham, NC
Leading a team of developers and designers to create and maintain features within Wordsmith, an NLG platform. Planning projects, designing and building features in a Rails/React codebase, and supporting my team.
- Feb 2016-Apr 2017 **Senior Front-end Engineer**, Automated Insights. Durham, NC
Designed and developed features for Wordsmith, the company's flagship product. Worked closely with other engineers and product managers to prototype, release, and iterate on features within a Rails/Angular codebase.
- Jan 2015-Feb 2016 **Senior UI/UX Engineer**, Bronto Software. Durham, NC
Led projects of varying sizes, from design to production on the front-end engineering team at Bronto. Worked closely with other engineers and product teams at Bronto to build and launch new features, and maintain existing application.
- Jul 2012-Jan 2015 **UI/UX Engineer**, Bronto Software. Durham, NC
Worked with the front-end engineering team at Bronto Software, on the core Bronto Marketing Platform. Designed and built a variety of features within the web based enterprise application. Worked primarily in JavaScript, within a PHP based codebase.
- Jul 2010-Jun 2012 **UI Engineer**, Cloudmark Inc. San Francisco, CA
Front-end and UI expert on the web team in medium sized messaging security company. Responsible for creating and maintaining various customer facing corporate web properties. Led creation of corporate UX guide along with redesign of several existing applications and websites.

.edu
